## Professional Summary

Aspiring Software Developer and current Computer Science student with a strong foundation in **Java, Python, and Front-End Web Development**. Combines 3+ years of professional reliability at Publix with a deep technical interest in high-performance hardware and custom PC architecture. Proven ability to take ownership of projects from concept to deployment.

---

## Technical Skills

- **Languages:** Java, Python, HTML5, CSS3
  - **Web Development:** GitHub Pages, Web Hosting, Responsive Design
  - **Hardware/IT:** Custom PC Building, Overclocking, Thermal Management, System Optimization
  - **Software:** Git/GitHub, VS Code, Object-Oriented Programming (OOP)
- 

## Technical Projects

### Lead Developer | Overclocked Nights (Web Project)

*View Live:* [lucasmbrown1-ctrl.github.io/OverclockedNights/](https://lucasmbrown1-ctrl.github.io/OverclockedNights/)

- Designed and deployed a professional-grade website using **HTML and CSS** to showcase a custom PC building service.
  - Implemented clean navigation and external API links (NVIDIA) to enhance user resource accessibility.
  - Focused on brand identity and service-oriented copywriting to explain complex technical concepts (bottlenecking, thermal applications) to a broad audience.
  - Managed version control and deployment via **GitHub**, demonstrating proficiency with developer workflows.
-

## Education

**Associate of Science in Computer Science & Programming** | *Expected 2024/2025 State College of Florida (or your specific school)*

- **Core Coursework:** Python Programming, Java Development, Web Style Coding, Data Structures.
  - **Relevant Skills:** Algorithm design, troubleshooting code, and software lifecycle.
- 

## Professional Experience

**Service Associate** | **Publix Super Markets** *2021 – Present*

- Maintained a consistent three-year tenure, demonstrating high professional reliability and a "take charge" attitude toward daily operational tasks.
- Entrusted with completing time-sensitive projects and managing department workflows with minimal supervision.
- Developed strong communication skills, effectively translating customer needs into actionable solutions.
- Adapted quickly to changing priorities in a fast-paced environment, ensuring 100% project completion rates.
